

# Program Application Package

**Healing and recovery happen here.** As the only residential eating disorder recovery center in Saskatchewan, BridgePoint fulfills a unique niche as we provide a holistic approach to eating disorder recovery.

Dedicated to people 16 years and older with disordered eating, or an official eating disorder diagnosis, we offer group-based residential programming that is integrative, responsive, and collaborative. Programming includes psychoeducation and process groups, intensive experiential learning and teaching sessions within a group model, individual discussions and processing of personal issues. Individuals are encouraged to progress at their own rate toward their personal or optimal level of wellness.

Attending a retreat is the first phase of programming. It is a chance to learn tools and coping strategies, make connections with others struggling with similar issues and start the recovery process. Available programming dates can be found on our website. Co-ed programming is scheduled based on demand.

Our current complement of sequential programming options includes:

- **Retreats** (offered 8-10 times annually) – *Prerequisites:* Submit Form A; self-referral or professional referral
- **Module 1** (offered 3 times annually) – *Prerequisites:* Completion of a Retreat; Submit Forms A, B, C
- **Module 2** (offered annually) – *Prerequisites:* Completion of Module 1; Submit Forms A, B, C
- **Module 3** (offered sporadically dependent on funding) – *Prerequisites will vary dependent on program offered; typically include completion of at least Module 1, with preference to those who have recently completed all available programming, using their tools, highly motivated and actively pursuing recovery.*
- **Youth Program** *Prerequisites include Form A (Youth), ages 12-16, and may include parents and caregivers.*
- **Co-ed Programming is offered based on demand.**

The BridgePoint model is holistic in approach and not a medical model. Our multi-disciplinary team is comprised of peer, paraprofessional and professional support with diverse backgrounds, education and experience. We work in partnership with the Saskatchewan Health Authority and include community mental health nurses onsite during admission and intake process. Participants are required to remain medically stable prior to attending and throughout the program must be medically and psychiatrically stable for admission and to remain in the program. Health centers in Rosetown and Outlook are 25 minutes away from the center.

Our program uses multi-modalities through a strengths-based and non-diet approach lenses, including DBT (emotional and social), CBT (thoughts), Family Inclusivity, EFFT, ACT, Solution Focused, Narrative (story), Brain Research & Neuroplasticity, Creative Expressions, Yoga & Movement, Nutrition, Brené Brown and Equine Assisted Learning. We integrate breath work, guided visualizations, and mindfulness practices.

Self-responsibility is encouraged and supported in all programming. In each step of the programming, participants will stay onsite in community. We generally accommodate up to 12 participants at a time. The smaller group number allows for diversity and connection as a group.

## What to expect

Our team has diverse and integrated strengths, talents and resources to support your needs. The residential nature of the program means that there are always opportunities for reflection, learning and growth. Exploration and sharing takes place within a group setting during the module. Eating disorders thrive on secrecy and isolation, so the experience of living in community is profound as it offers a sense of belonging and inclusion and allows for mutual support. Struggling with an eating disorder can be a very lonely, painful existence. We understand this. Most rooms are double occupancy with limited single rooms.

## Arrival Times & Program Schedule

The doors will open at 3pm for all programs, unless otherwise advised. If you arrive prior to this time, you will be able to wait in the front lobby until the intake process begins. It is important to arrive on time for intake. Programs run from 9am until 9pm with a full day of group learning, community meals and personal opportunity time.

## Dining & Kitchen Info

Dining together in community is an important part of the program. Participants will also serve an integral part in the preparation and clean-up of meals. Instead of food policing and focusing on meal plans, we focus on why individuals may be using behaviours, rather than the behaviours themselves.

BridgePoint provides three meals and snacks as part of the program. The food services team provides homemade baking, soups, breakfast and noon food prep, and the evening meal prep. We try our best to provide participants nourishing and nutritious menu choices.

Please let us know as far in advance of your program if you have food sensitivities or allergies. If your allergies are severe enough to require you to carry an epi pen, please inform us as well. We do our best to accommodate special diets, but we cannot guarantee that all requests can be offered. Vegetarian choices are part of a rotation of chicken, fish, beef and pork, some which would be suitable for vegans.

Our kitchen is not equipped to provide Kosher/Halal meals and cannot provide the level of Gluten Free foods that someone with Celiac disease would require.

There is a fridge onsite for participant use. We ask you not to binge on community food, so please bring your own binge food if you think you will require it.

## Our Facilities

We are located in the former Milden Hospital in the quaint town of Milden in central Saskatchewan. Over the last couple of decades, much care and attention has been taken to modernize the facility and to make it a safe and comfortable retreat like setting. The tranquility and simplicity of being in rural Saskatchewan eliminates the distractions of day-to-day life and provides space to focus on discovery and recovery.

Our address is: 744 Saskatchewan Avenue in Milden, Saskatchewan (in between Rosetown and Outlook along Highway 15).

You are welcome to park on either side of the street in front of the center and come in the main doors. Please do not park in front of the church.

There are basic laundry facilities on site for you to use free of charge. A set of bedding, pillows, towels and a laundry basket are available for each participant to use during programming.

***Bridgepoint is a scent sensitive and peanut free facility.***

***Thank you for not bringing peanuts or peanut products, scented lotions, shampoos, body wash, soap, perfumes, hairsprays, essential oils or other scented products.***

***Please refrain from all mind altering substances prior to admission. BridgePoint is not a detox facility.***

## Application Process

BridgePoint can support you during the application process. Our **Recovery Support Line** is open from Tuesday to Thursday (1pm-9pm) for pre and post programming support (when not in scheduled programming).

As space for each program is limited and the demand for the program is continuing to increase, we encourage you to contact us with your interest in attending a program. Once you apply for a program, you will indicate your preferred program dates. Program confirmations may be based on participant stability, referrals and coordination with SHA, availability of beds, prior admissions, previous attendance, etc.

Following our verification that all the necessary components of the referral/application have been satisfied and all forms completed and received, BridgePoint will contact the participant to confirm they are registered for participation in the program. **A space is not confirmed without verbal or email confirmation from BridgePoint.** Participants are required to be medically and psychiatrically stable in order to be admitted into and remain in the program.

Upon receiving a completed application package, a team member will contact you to clarify any questions and to advise on the next available program date.

As you and/or your child work together with your Service Provider, options for care and service will be explained so that informed decisions can be made, and goals set. As part of providing service to you, your assigned Service Provider will need to collect and record personal information that is relevant to your current needs. Goals and a treatment plan for counselling that includes approximate length of therapy will be developed with your clinician and regularly reassessed to ensure a successful outcome.

To assist with treatment planning, the service plan that you and/or your child develop with your Service Provider, will be documented and may be shared with current and future assigned members of your treatment team. Such individuals may include but are not limited to Psychiatrists, Family Physicians, other Community Service Providers, and the person who referred you to Mental Health and Addictions Services.

Mental Health and Addictions Services develops a case file on MENTAL HEALTH AND ADDICTION INFORMATION SYSTEM (MHAIS) regarding services provided for all individuals. There are laws and policies that regulate how information is to be kept, when it can be shared and with whom. At any point, you can request to have access to your file. You will be provided the requested documents or the reason the documents cannot be provided according to legislation. You can also request at any time to see who has had access to your file. Confidentiality is limited by requirements of the Criminal Code of Canada, the Child and Family Services Act, the Mental Health Services Act, and the Health Information Protection Act. Information will be released under the following circumstances:

1. You request information be shared with another individual or agency, and sign a release statement.
2. There is reason to believe there is serious and imminent risk of harm to you or others.
3. There is reason to believe that a child is in need of protection.
4. Information is required by law or the Courts;
5. Inpatient care or treatment is required within the Saskatchewan Health Authority or partnering agency.
6. There is reason to believe that you pose a risk to operate a motorized vehicle and/or airplane.

Your clinical record will be maintained for 10 years and your child's clinical record will be maintained 20 years after you complete services in a secure location. If you feel unclear at any time about the issue of confidentiality, or would like a copy of these regulations, please let your service provider know.

A request may be made of you and/or your child to participate in training activities. Participation is optional. Your service provider may be in a provisional/probationary period and will be working under the direct supervision of a fully qualified supervisor.

Clinical supervision is provided to all staff, and files will be reviewed for supervision purposes.
